PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 40 repositories and 2 GitHub organizations (learnhikmah & balzo-app). Experienced in architecting fast, reliable web and mobile systems solo using Next.js (App Router), TypeScript, Supabase, BetterAuth, HeroUI, React Native, the MERN stack, and deterministic Agentic AI workflows.

TECHNICAL SKILLS & MODERN STACK

Frontend & UI Systems: Next.js (App Router, SSR), TypeScript, React 18, HeroUI, Tailwind CSS, State Architecture, Accessible UI

Backend, Auth & Data: Supabase (PostgreSQL, RLS), BetterAuth, Node.js, Express.js, MongoDB (Atomic Concurrency), REST APIs, RBAC

Mobile, AI & Tooling: React Native / Expo (Balzo App), Monorepo Architecture, Agentic AI Workflows, Gemini API, Git, Vercel, Linux

PROFESSIONAL EXPERIENCE & LEADERSHIP

Solo Full-Stack & Monorepo Architect - LearnHikmah (learnhikmah org) (Remote | Dhaka) **2024 - Present**

Stack: Next.js | TypeScript | BetterAuth | HeroUI | RBAC

- Engineered a private monorepo architecture powering learnhikmah.com (SSR course portal) and app.learnhikmah.com (interactive LMS) solo from scratch.
- Implemented strict role-based access control (RBAC) across student, instructor, and admin views with BetterAuth, HeroUI, and atomic lesson progression tracking.

Founder & Solo Mobile/Web Engineer - Balzo (balzo-app org) (Dhaka) **2024 - Present**

Stack: React Native | Expo | Next.js | Supabase | BetterAuth

- Architecting a multi-financial mobile application solo under the balzo-app organization using React Native/Expo, TypeScript, Supabase, and BetterAuth.
- Designing unified multi-account ledger schemas, row-level security (RLS) policies, and shared TypeScript contracts for the upcoming companion web app.

Full-Stack & AI Systems Engineer - An-Nujum Foundation & Open Source (Dhaka) **2023 - Present**

Stack: Next.js | Supabase | HeroUI | MERN | Agentic AI

- Developed the An-Nujum Foundation platform (github.com/nymulislam/an-nujum-foundation) for managing foundation activities, donation workflows, and community initiatives.
- Shipped 40 repositories spanning full-stack MERN commerce (E-Page with atomic inventory locks), healthcare/recruitment web suites (IlmMed, Job Heaven), and Agentic AI tools.

SELECTED PRODUCTION PROJECTS & SYSTEMS

LearnHikmah Platform | Solo Architect | Next.js | TS | HeroUI | Tailwind learnhikmah.com ->

Public education and community portal engineered solo inside the private learnhikmah monorepo. Built for fast global reading with server-rendered pages and clean typography. Outcome: Sub-50ms edge cached course catalog & mobile-first reading layout.

LearnHikmah LMS | Solo Full-Stack | Next.js | BetterAuth | RBAC app.learnhikmah.com ->

Dedicated learning management system in the learnhikmah private monorepo. Handles student dashboards, lesson progression, and role-based permissions. Outcome: Strict role isolation across students, instructors, and admins.

E-Page Commerce | Top Pinned | React | Node | MongoDB e-page.vercel.app ->

Full-stack MERN bookstore featuring instant catalog filtering, reactive cart persistence, and a friction-free checkout pipeline. Outcome: Race-condition-free inventory mutations & instant search filtering.

An-Nujum Foundation | Lead Engineer | Next.js | TS | HeroUI | Supabase github.com/nymulislam/an-nujum-foundation ->

Web platform built for An-Nujum Foundation to manage charitable initiatives, transparent donation workflows, and community outreach programs. Outcome: Streamlined program publishing, donor transparency & mobile-first performance.

Balzo Financial App | Solo Founder & Engineer | React Native | Supabase | BetterAuth balzo-app org ->

Multi-financial mobile application engineered solo under the balzo-app organization, designed for unified multi-account tracking with an upcoming web suite. Outcome: Shared TypeScript financial contracts across mobile and upcoming web clients.

IlmMed & Web Suite | Web Suite | React | Express | Tailwind ilm-med-solution.vercel.app ->

Production web suite spanning healthcare services (IlmMed), recruitment workflows (Job Heaven), and interactive catalog apps across 40 GitHub repositories. Outcome: Clean component boundaries & resilient API error handling.

EDUCATION & CREDENTIALS

Takmil (Master's Equivalent in Islamic Studies & Classical Arabic) **2025**

Jamia Arabia Imdadul Uloom, Faridabad, Dhaka | Al-Haiatul Ulya Lil-Jamiatil Qawmia Bangladesh

Higher Classical Arabic Grammar (Nahw/Sarf) & Formal Logic (Mantiq) **2022**

Jamia Rahmania Arabia, Dhaka | Befaqul Madarisil Arabia Bangladesh

Hafiz-ul-Quran (Complete Memorization of the Holy Quran) **Completed**

Hifzul Quran Department, Dhaka | Certified Hafiz-ul-Quran
